SECTION IV FIRE AND EXPLOSION HAZARD DATA

Flash Point: N/A

Flammable Limits: N/A

Explosion hazards: Produces dense black smoke if burned

SECTION V HEALTH HAZARD DATA

Eye Contact: No irritation is expected. In case of contact, flush with water.

Skin Contact: Nonirritating to skin. Prolonged exposure to skin is not likely to result in material being absorbed through skin in harmful amounts.

Inhalation: Inhalation of decomposition products from burning may cause eye and respiratory irritation. If irritation develops following inhalation of decomposition products, remove the victim from area to fresh air. If symptoms persist, get prompt medical attention.

If Swallowed: Ingestion is not a likely route of exposure to this product. Ingestion may cause choking if swallowed. Single dose toxicity is believed to be very low.

Other Health Hazard Information:
No other effect on health is known.

Protective Clothing: The use of gloves, moisture impervious aprons, and other protective clothing must be dictated by the standard operational procedures of each individual laboratory. Wash hands thoroughly after handling.
